IMPORTANT THINGS YOU NEED TO KNOW:

TPG Home Phone can only be ordered as a bundle with ADSL2+ by new customers only at this time. TPG Home Phone does not support Fax, EFTPOS, Back to Base alarms, Foxtel program purchase and analogue modems. Once an ADSL2+ with TPG Home Phone plan is purchased:

- Change of plan option is restricted to ADSL2+ with TPG Home Phone bundles only.
- You cannot cancel either component (ADSL2+ or Home Phone). Cancellation will cease both services.

Minimum total cost for ADSL2+ with TPG Home Phone over 18 month contract term calculated as: 18 x \$(ADSL2+ monthly access + TPG Home Phone monthly access + \$10 Minimum Monthly Call Spend) + TPG Home Phone Deposit + modem & delivery fee (if required).

ADSL2+ Speeds: Optimal ADSL2+ speeds require compatible ADSL2+ modem and filters. Around 70% of TPG ADSL2+ customers can achieve speeds greater than 10Mbps. Actual speeds will vary due to many factors including distance from the local telephone exchange, the quality of the customer's copper phone line, cabling and equipment.

TPG Home Phone Number:

Choose to port your existing phone number to the TPG Home Phone service or receive a new phone number from TPG. When porting, your current phone service will be disconnected at the same time as your ADSL2+ service is activated and will take a further 3-4 business days to transfer your phone service to TPG. In the mean time, incoming calls will be redirected to TPG Message Bank for your retrieval. TPG recommends that you organise access to an alternative telephone service while your number is being ported for emergency service access. If you choose to receive a new phone number from TPG, your number will be allocated to you based on the address which you provide us at the time of registration. TPG will supply a Direct Inward Dial Number (DID) for use with the TPG Home Phone service and will use your DID number as a reference point to charge for local calls. TPG will use its best endeavours to supply the Integrated Public Number Database (IPND) with your address details for the purpose of emergency services (000) calling.

Minimum Monthly Call Spend:

TPG Home phone requires a Minimum Monthly Call Spend of \$10 per month. If you make less than \$10 worth of calls in any month, your account will be automatically adjusted so that the difference will also be taken from your TPG Home Phone Deposit in arrears on the 1st day of each billing cycle. For example, if you only make \$6 worth of calls in one month, we will deduct an additional \$4 from your TPG Home Phone Deposit to bring the Call Spend Amount to \$10.

Usage Quota and Speed Shaping:

Uploads on some plans are counted towards monthly usage quota. 1GB (Gigabyte) = 1000 MB (Megabyte). Unused usage quota forfeited each month.

- ¹ Consists of peak (8am-2am) and off peak (2am-8am) monthly usage quota. Speed will be shaped to 1Mbps/1Mbps for the period in which the monthly usage quota has been exceeded (peak and/or off peak). Uploads are not counted towards monthly usage quota.
- ² Consists of peak (8:30am-3:30am) and off peak (3:30am-8:30am) monthly usage quota. Speed will be shaped to 2Mbps/1Mbps for the period in which the monthly usage quota has been exceeded (peak and/or off peak). Uploads are not counted towards monthly usage quota.
- ³ Speed will be shaped to 4Mbps/1Mbps once inclusive monthly usage quota is reached. Uploads are not counted towards monthly usage quota.
- ⁴ Consists of peak (8am - 2am) and off peak (2am - 8am) monthly usage quota. Speed will be shaped to 1Mbps/1Mbps for the period in which the monthly usage quota has been exceeded (peak and/or off peak). Uploads are counted towards monthly usage quota.

~ Limited Coverage availability at select TPG Exchanges.

* TPG may, on giving you 7 days notice by email, adjust the start/finish (but not the length) of peak/off peak times.

IP Address:

All ADSL2+ with TPG Home Phone plans come with Static IP address.

† Free TPG IPTV Trial requires a minimum speed of 3.5Mbps. Number of free channels available for viewing is subject to exchange capabilities. Free TPG IPTV Trial does not include subscription based channels. To register please visit www.tpg.com.au/iptv once your ADSL2+ connection is active.

Do you currently have an ADSL2+ connection and/or any complex products on the nominated phone line?

If you currently have an ADSL2+ connection and/or any complex products on the nominated phone line, you are required to cancel existing ADSL2+ service and/or all complex products within 3 working days from the date you receive confirmation email from TPG. The most common complex products include Fax Stream Duet, ISDN, Securitel, Line Hunt and PBX Rotary Group. - for the minimum contract period referred to in your application or in the service description or plan brochure; or
- until it is terminated in accordance with clause 12.

2.4. If neither you nor we cancel the agreement at the end of the fixed period contract, we will continue to supply the service to you on a month-to-month basis.

2.5. If we will not continue to provide the service to you at the end of the fixed-period contract or if we wish to change the terms of the agreement, including charges, we will inform you of this at least 30 days before the end of the fixed period contract.

3. Changes to the Agreement

- Where you agree to the change;

- not disclose any personal information provided to us under the Direct Debit Request, which is not generally available, unless: you dispute any amount we draw under your Direct Debit Request and we need to disclose any information relating to your Direct Debit Request or to any amount we draw under it to the Financial Institution at which your account is held or the Financial Institution which sponsors our use of the Direct Debit System or both of them; you consent to that disclosure; or we are required to disclose that

We will endeavour to resolve any dispute within 21 days. Disputes may also be directed to your own Financial Institution;
- e) acknowledge it is your responsibility to ensure there are sufficient clear funds available in your account by the due date, on which we will draw any amount under your Direct Debit Request, to enable us to obtain payment in accordance with your Direct Debit Request;
- f) acknowledge that if your Financial Institution rejects any of our attempts to draw an amount in accordance with your Direct Debit Request, we will recharge any dishonour fees charged to us by the Financial Institution, to your account. We will make two attempts to draw outstanding amounts in accordance with your Direct Debit Request. If these fail, we will contact you by telephone or in writing to seek alternative methods of payment for the outstanding balance of your account, and to agree a suitable payment method for future account payments;
- g) acknowledge not all accounts held with a Financial Institute are available to be drawn under the Direct Debit System and that prior to providing your account details to us under the Direct Debit Request, have verified those details against a recent statement from your Financial Institution to ensure those details are correct.

Service Description and Terms – ADSL2+ with TPG Home Phone bundle and Naked ADSL2+

1. THE SERVICE

These Naked ADSL2+ Service Description and Terms also apply to ADSL2+ with TPG Home Phone. They do not apply to ADSL2+ standalone plans.

1.1. Naked ADSL2+ is a high speed broadband Internet service delivering Internet content and related services such as email using asynchronous digital subscriber line (ADSL) technology over a pair of copper wires over which only the Naked ADSL2+ service is provided (that is, there will be no public switched telephone service operating on the copper pair). The copper pair is part of a network commonly known as the "unbundled local loop" or the "ULL".

1.2. We do not guarantee provision of Naked ADSL2+ to every applicant. Naked ADSL2+ is only available to addresses within TPG's ADSL network coverage area where there is available infrastructure to provision the Naked ADSL2+ service. There must be available at the service delivery address a suitable copper pair which, at the time of application, has a standard telephone service operating on it where Telstra is the underlying owner of the copper pair. Not all copper pairs are suitable. Limitations may include the existence of complex services being supplied over the copper pair (e.g., ISDN, Duet, Securitel, Line Hunt, ADSL2+ etc), and where there is RIM, sub-exchange, pair gain or other network elements affecting the copper pair.

1.3. The connection speed of the Naked ADSL2+ service will be high speed broadband delivered using ADSL2+ technology. TPG does not guarantee that customers will achieve maximum ADSL2+ connection speed as specified in the plan details. The speeds for the service can vary substantially due to many factors. These include distance from local exchange, quality of phone line, EMI (Electro-Magnetic Interference), the number and type of other services using the line, the capacity of the uplink, and customer's modem/router. Customers who are more than 3kms from the telephone exchange and/or with poor quality telephone lines may be limited to ADSL2 (G992.3) or ADSL1 (G992.1) modulation for stability purposes and due to technical limitation of Telstra infrastructure.

1.4. If Naked ADSL2+ is installed on a copper pair at your service delivery address, you will not be able to use that the copper pair for any telecommunications service supplied by a third party carrier, though TPG IPTV may be available.

1.5. Naked ADSL2+ will be supplied under a plan which you select at the time of application for the service.

1.6. Business plans are available only to customers who provide a valid ABN on application.

1.7. Your Naked ADSL2+ service may not be resold or on-sold and you must ensure that it is not made available to ISPs, Internet Cafés or Web Hosting Companies.

1.8. The Naked ADSL2+ service is not a standard telephone service and the Customer Service Guarantee does not apply.

2. INSTALLATION OF NAKED ADSL2+

2.1. During the application process, you will be asked to nominate an existing standard telephone service number which is operational at the service delivery address. You warrant that you are the legal renter of the telephone line provided or are authorised by the legal renter to consent to the installation of the Naked ADSL2+ service.

2.2. If you have any complex services on the copper pair (refer clause 1.2 above) you will be required to cancel those complex services before any installation can proceed. You acknowledge and agree that, if you are a customer of TPG's ADSL2+ broadband and cancel that complex service in order to acquire Naked ADSL2+, there is no guarantee that the ADSL2+ port will remain available for you to return to acquire that ADSL2+ service from TPG. There may be a delay of up to 3 weeks between cancellation of ADSL2+ and installation of Naked ADSL2+.

2.3. By applying for the service, you authorise TPG to cancel the PSTN telephone service and convert it to a line for use with the Naked ADSL2+ service. The telephone line and all services and features associated with the telephone line (including PSTN landline telephone service) will be disconnected automatically once the service is activated.

2.4. You acknowledge and agree that any functionality that may require a standard telephone service dial tone will not function when using Naked ADSL2+. Such functionality includes without limitation:

- Fax machines;
- Alarm monitoring;
- PBX and other phone systems;
- Line hunt;
- Existing DSL services;
- Dial up network access;
- EFTPOS; and
- Movie ordering, voting and other facilities provided by Pay TV requiring a standard telephone service will not be possible with Naked ADSL2+.

2.5. It is your responsibility to ensure that your computer and software conform to the minimum standards required to access and use Naked ADSL2+. Our system requirements are detailed online at http://www.tpg.com.au/products_services/system_requirements.php

2.6. TPG is responsible for delivering the service to the network boundary point at your premises. You are responsible for all cabling and wiring within your premises. Where cabling does not exist or you have a fault with the wiring in your premises, you must arrange for your own contractor to rectify this.

2.7. For Naked ADSL2+ to be installed, your copper pair must support the service. Provisional checks to confirm the telephone line can support the Naked ADSL2+ service are carried out on application, but this does not guarantee the service can be successfully installed.

2.8. We will endeavour to install the service within a reasonable time from your order but provisioning may be rejected or delayed due to many factors, including but not limited to, transpositioning (the line cannot carry ADSL/ADSL2+). Such issues are outside of our control. If there are issues, you must give us the opportunity fully to investigate the reasons for such rejections before terminating the contract.

2.9. At the time of installation, we will conduct a qualification test to ascertain whether there is a suitable copper pair available for use at the service delivery address. If there is no such suitable copper pair, we will notify you by email and the agreement between TPG and you for the sale and purchase of Naked ADSL2+ will be terminated.

2.10. You release TPG from, and indemnify TPG against, all liability to you or any other person for any loss or damage arising out of or connected to TPG's refusal to accept your application for the service or its inability to install the service.

2.11. You are responsible for all costs and charges associated with any agreement for the delivery of carriage services supplied to the service delivery address on the telephone line before the cutover to Naked ADSL2+.

You understand that all TPG fees and charges may be altered from time to time by TPG without notice, however, TPG will not increase the subscription fee for your plan until the end of the Minimum Contract Term. For example, TPG is not liable for: delay, interruption in or cessation of TPG IPTV, failure to broadcast an advertised program, the quality of transmission of any channel, including both standard package and Pay channels. TPG excludes all liability to you for any indirect, special or consequential loss.

We will not reimburse you for access or performance problems caused by equipment which is not supplied by us or if the warranty is expired.

4.2. The ADSL USB modems supplied by us do not work in a routed environment and are not stable in a Mac OS or Pre Windows 98 (2nd edition) environment.

Service Description and Terms – TPG Voice

1. THE SERVICE

1.1. The TPG Voice service has two types:

- a) TPG VOIP; and
- b) TPG Home Phone.

1.2. The primary differences between TPG VOIP and TPG Home Phone are generally described as follows and in the below table:

- a) TPG VOIP is a voice service where, generally, the call is carried over a broadband internet connection. It is not a standard telephone service and requires special equipment other than a standard telephone; and
- b) TPG Home Phone is a standard telephone service where the call is not carried over a broadband connection but rather, like conventional telephony, is carried directly over the copper pair between the customer premises and TPG switching equipment. A conventional telephone handset is required for TPG Home Phone.

| | TPG VOIP | TPG HOME PHONE |
|---|---|---|
| Functioning Broadband Connection Needed | Yes | No |
| Special Equipment or Software Needed | Yes - softphone, USB phone, ATA or VOIP Modem | No - just a telephone |
| Standard Telephone Service | No | Yes |
| Preselect or Override to other carriers possible | No | No |
| Customer Service Guarantee | Does not apply | Must be waived by the customer for some plans |
| Number assigned | Yes | Yes |
| Fax Transmission | Not reliable | Not reliable |
| Support for Foxtel, back to base alarms and similar | No | No |

1.3. TPG does not warrant that a customer will be eligible to acquire either type of TPG Voice service. The availability of either type of service and the eligibility of a customer to acquire either type will be determined at the time of application by the customer for the service.

2. TPG VOIP

2.1. TPG VOIP is a service which enables you to make and receive voice calls over your broadband internet connection (ADSL, ADSL2+, Naked ADSL2+). It is particularly designed for use with TPG's broadband services.

2.2. TPG VOIP is not intended to be used as a standard telephone service. If your internet is not functioning for any reason, including where there is a power failure, data congestion, or other internet outage, TPG VOIP will not function or will not function correctly.

2.3. TPG VOIP may be used to make and receive calls to/from

- a) Other TPG VOIP customers;
- b) Standard Australian local and national numbers;
- c) Australian mobile numbers in Australia;
- d) 000 emergency services;
- e) Free phone and local rate numbers such as 13, 1300 and 1800 numbers;
- f) Directory assistance numbers;
- g) Satellite phones;
- h) Most International destinations.

2.4. It is not possible to use TPG VOIP to make calls to premium numbers such as 19 and 1900 numbers.

2.5. TPG VOIP is not useable for fax transmission, pay TV system dialups (e.g., Foxtel, Astar, Select TV), back to base alarms and other monitoring systems using phone lines, dial up modem and other analogue data calls (e.g., EFTPOS).

2.6. TPG retains the complete discretion to decide the CODEC which will be used for the TPG VOIP service.

2.7. It is a condition of supply of the Service that you must not preselect to another carrier or use the TPG VOIP service to make override calls on a third party network. TPG may terminate the supply of the service if you preselect to another carrier or use the service to make override calls. You agree that you will not request that TPG procure the ability to preselect or override to other carriage service providers.

2.8. In addition, TPG also sells international VOIP minutes via TPG's VOIP International Gateway. TPG's VOIP International Gateway is an IP gateway which enables voice calls to be carried to certain international destinations. TPG's VOIP International Gateway can only be accessed by registered TPG customers and access to the TPG VOIP International Gateway may be achieved by one of the following methods:

- a) by dialling a nominated TPG VOIP International Gateway telephone number from a Australian telephone service (whether fixed or mobile) which has been registered with TPG; or
- b) by means of Internet Protocol (IP) connectivity (this access method is not initially available but it is expected that it will become available in due course).

TPG advises you that charges for International VOIP Minutes exclude any charges that you may incur in accessing the TPG International VOIP Gateway. For example, you will probably incur a fixed or per minute charge from your telephone service provider for dialling the TPG VOIP International Gateway. When accessing via IP, you will utilise data quota that may be supplied to you by your IP provider and, in some circumstances, incur charges for the data used in accessing the TPG VOIP International Gateway. Such charges are your responsibility and you should make your own enquiries before deciding to register for and use the TPG VOIP International Gateway service.

3. TPG HOME PHONE

3.1. TPG Home Phone is a standard telephony service similar to any conventional telephone service. A standard telephone must be connected to a standard RJ11 telephone socket which is cabled and connected to a qualified copper pair.

3.2. In order to acquire TPG Home Phone, there must be an available qualified

copper pair at the customer premises. This means that the customer premises will need to have:

- a) An existing functioning standard telephone service using a copper pair. The qualification of the copper pair to be used for the TPG Home Phone service will be determined during the application process.

3.3. TPG Home Phone is not useable for fax transmission, pay TV system dialups (e.g., Foxtel, Astar, Select TV), back to base alarms and other monitoring systems using phone lines, dial up modem or other analogue data calls (e.g., EFTPOS).

3.4. TPG may offer a range of features with TPG Home Phone but is not obligated to do so. Initially, customers should understand that some of the features that might be available with other telephony services, such as caller ID, call forwarding, call hold etc will not be available. If TPG chooses to make such additional features available, the terms under which those features are offered will be stipulated at the time of offer.

3.5. It is a condition of supply of the service that you must not preselect to another carrier or use the TPG Home Phone service to make override calls on a third party network. TPG may terminate the supply of the service if you preselect to another carrier or use the service to make override calls. You agree that you will not request that TPG procure the ability to preselect or override to other carriage service providers.

4. CUSTOMER SERVICE GUARANTEE

4.1. The Customer Service Guarantee (CSG) is a guarantee that is proscribed under the Telecommunications Act 1997 and gives consumers certain rights in connection with standard telephone services. These rights include:

- a) The right to be provided with information about the CSG and the performance standards applicable under it;
- b) The right to receive compensation if a standard telephone service is not connected within a specified timeframe;
- c) The right to receive compensation if a fault or service difficulty exists on a standard telephone service and is not rectified within a specified timeframe;
- d) The right to receive compensation if TPG misses an appointment with a customer with whom TPG has made an appointment in connection with the standard telephone service.

The specified timeframes and the amounts of compensation vary based on the customer location, the nature of the infrastructure available at the customer site and the length of time during which default has occurred. Details are available at the ACMA website at http://www.acma.gov.au/WEB/STANDARD/pc=PC_2017.

4.2. TPG VOIP is not a standard telephone service and the CSG therefore does not apply in respect of this service.

4.3. TPG Home Phone comes in a range of different plans. Some plans will include for your benefit, the rights set out in the CSG. It may be a condition of other plans that you waive the CSG. The charges for such plans are typically cheaper than the charges for plans which include the CSG but you should make your own assessment as to whether the non-CSG plans represent sufficient value for you to waive the rights given to you under the CSG.

4.4. If you wish to acquire a TPG Home Phone plan in respect of which TPG requires that the CSG be waived, you must agree to waive the CSG and complete the CSG Waiver Form.

4.5. If you give a CSG waiver and withdraw that waiver within 7 days of giving it, the waiver will not be effective and you agree that we may terminate the agreement for the supply of the TPG Voice Service.

5. EQUIPMENT

5.1. To use the TPG VOIP service, you must obtain and maintain:

- a) a functioning broadband connection to the Internet;
- b) a means of making/receiving a call which could be:
 - i. a softphone client installed on the computer which is connected to the Internet (a "Connected Computer") and has sound capability and a functioning microphone;
 - ii. a USB phone which is connected to a Connected Computer or an IP Phone which is connected directly or indirectly to the Broadband connection or an ATA device;
 - iii. a standard telephone which is connected to a router capable of making and receiving VOIP Calls (a "VOIP Routers").

5.2. To function with the TPG VOIP service, your equipment should support 3 CODECS, namely G.711a, G.711u and G.729. If all three CODECS are not supported, calls made to a third party may be terminated due to a mismatch of CODECS.

5.3. TPG may but need not make a softphone client available for free download from the TPG website. The TPG softphone available on the TPG website as at 22 September 2009 only supports the G.711 CODEC and does not support the G.729 CODEC and therefore may not be suitable. TPG does not support any other softphone clients.

5.4. TPG does not support USB phones or IP Phones or ATA devices, though these may work with TPG VOIP.

5.5. TPG supports only VOIP Routers which have been purchased from TPG. TPG does not support other VOIP Routers.

5.6. To use the TPG Home Phone service, you require a telephone handset connected to an available and properly connected qualified copper pair. The supply and maintenance of the telephone handset and the cabling at your premises is your responsibility. TPG is responsible for the copper pair between the exchange and the customer premises.

5.7. If, during the application process, you order equipment from TPG, TPG transfers title to that equipment to you on payment of the purchase price. Risk in the ordered equipment passes to you when the equipment is shipped from the TPG warehouse.

5.8. TPG reserves the right to supply an alternative model or brand of equipment, of similar quality and technical specification to the one displayed on the TPG website when you ordered during the application process.

5.9. TPG will only deliver ordered equipment to the service delivery address

supplied by you in your application for service. If you are not available to receive delivered equipment and the equipment is returned to us, the cost of the return will be borne by you. In addition, we will charge you to redirect/ resend the equipment. Shipping & handling fees are non-refundable.

5.10. Any equipment not supplied directly by TPG is not supported by TPG. TPG will supply basic information about the settings that may be necessary to make unsupported softphone clients, USB Phones IP Phones or VOIP Routers function with the TPG VOIP service but does not warrant that such settings will work and will not provide customer support in relation to unsupported devices. Assistance in relation to unsupported equipment should be sought from the manufacturers or distributors of the equipment.

6. EQUIPMENT WARRANTY

6.1. In addition to the statutory warranties that apply to the sale of equipment for personal or domestic use, equipment provided by TPG to you is covered by a 1 year return to base warranty. This means that equipment thought to be faulty must be returned to TPG at your expense for testing, repair or replacement. Replacement units are not provided until testing has been completed, and the unit is found by us to be faulty.

6.2. The warranty period will commence from the date of despatch from the TPG warehouse.

6.3. The warranty period will not restart if a replacement unit is issued.

6.4. If equipment bought from us is returned to us within the 1 year warranty period and is found to be faulty by us, we will replace, repair or credit your account for it at our discretion, unless we find the fault was caused by:

- a) A piece of equipment not supplied by us;
- b) Interference or modification to the equipment not performed by us or the manufacturer, or a failure to use the equipment in accordance with the manufacturer's or our specifications / instructions;
- c) Damage caused by you or a third party.

6.5. Support, maintenance and/or consulting by us to you are not provided as part of this agreement. You are responsible for any expenses relating to cabling, configuration and/or modifications to your equipment.

7. SECURITY

7.1. The Internet is an unsecure environment. TPG advises that it may be possible for a third party (such as a hacker) who has obtained access to your equipment or software, including equipment or software provided to you by TPG, to make calls using your TPG VOIP service.

7.2. TPG will provide you with a username and password at the time of activation. It is your responsibility to maintain safe and secure that username and password. You must ensure that appropriate security mechanisms are placed on all equipment so as to protect against hacking, including over wireless networks. Some steps that you should take include:

- a) not recording your username and password details on your computer or in any other location where they may be obtained by a third party;
- b) restricting administration access to your equipment;
- c) ensuring that WIFI access is protected with appropriate encryption and with limitation on persons and equipment that are permitted to access the WIFI; and
- d) ensuring that your passwords (including your router passwords) are not given out to unauthorised persons and are regularly changed.

7.3. Calls made from your TPG Voice service will be chargeable, whether such calls have been authorised by you or not.

8. NUMBERS & PORTING

8.1. A telephone number from the Australian Telecommunications Numbering Plan under the Telecommunications Act 1997 will be allocated to you for the period during which you acquire the TPG Voice service.

8.2. The geographic number allocated to you will be based on the service delivery address that you nominate in the application process or which you subsequently advise us. The number allocated to you will be at TPG's discretion. TPG has no obligation to give you an alternative number. If you move the service delivery address, TPG may be required to give you a different service number, relevant to your new service delivery address.

8.3. Porting arrangements have not been established with all carriers. Accordingly, it may not be possible to port a number to the service or away from the service.

8.4. If the porting of numbers to the service or from the service is possible, the following provisions apply:

- a) The ability to port a number into and out of the service is subject to availability and technical and commercial considerations.
- b) The porting of your number will be conducted in accordance with the relevant Communications Alliance codes.
- c) You may port your number if it is declared portable in accordance with the porting requirements administered by the ACMA and no exemption from such obligations has been granted.
- d) If you have ported your number from another service provider and the service is subsequently terminated or you terminate the service without reconnecting to another service provider, you will no longer have the right to use that number. Similarly, if you port your number from us to another service provider and are then disconnected you will no longer have the right to use the number.
- e) In order to port your number to us, you must complete and sign (whether under the Electronic Transaction Act or in writing) a Porting Authority Form (PAF). You warrant to us that all information supplied by you in the PAF is complete and correct. You indemnify us against (and will pay us for) any loss, liability, claim, damage, costs, expenses and charges reasonably incurred by us as a result of, or in connection with, the porting of any number to us which you authorise us to port but which number has not been validly assigned or allocated to you, or otherwise in connection with any incorrect or incomplete information supplied by you in the PAF.
- f) Your previous telephone provider may charge you for porting and there may be other costs and obligations such as early termination fees payable to your previous telephone provider. You indemnify us against all such fees and charges.
- g) When porting your number out to another carrier, there may be

charges payable to TPG for porting and other costs and obligations such as early termination fees and service and call charges that have not already been paid.

- h) During the process of porting the number from another supplier's network to TPG there may be a period when the service is interrupted.

9. ORDERING & ACTIVATION

9.1. You order the TPG Voice service by:

- a) completing an online application process at the TPG website;
- b) completing an application form at an authorised TPG dealer; or
- c) ordering the service through a telephone sales consultant.

9.2. You warrant that the information provided by you during the application process is true and correct. In particular, you warrant that TPG may rely upon the service delivery address for the service being accurate when it allocates the service number to you. This information is used to provide details to emergency service and directory listing operators and to establish which calls will be local calls. You must keep the information up to date during your acquisition of the service, including if you move premises. If we find that the information provided is not current or accurate and you fail to provide the correct information within 7 days of being requested to do so, we may restrict access to the service or disconnect the service.

9.3. Once you have correctly completed the application process, TPG will determine its capability to accept the application and, if it accepts the application, will endeavour to activate the TPG Voice service.

9.4. In the case of TPG VOIP, TPG will allocate the service number to you and will inform you that the service is activated. The service will be available for use and you must set up the relevant Connected Computer, softphone, USB Phone, ATA, IP Phone or VOIP Modem to enable use of the VOIP service.

9.5. In the case of TPG Home Phone, the following process will occur:

- a) TPG will conduct an initial test to ascertain the likelihood of there being a suitable copper pair at the service delivery address.
- b) If the initial test discloses that it is unlikely that a suitable copper pair exists at the service delivery address, TPG will advise you that a service cannot be provided and the application will be rejected.
- c) If the initial test discloses that it is likely that a suitable copper pair exists at the service delivery address, TPG will debit the initial upfront payment under the terms of the plan that you have chosen and will perform a more comprehensive service qualification in relation to the copper pair. If the service qualification establishes that the copper is not suitable, TPG will refund the initial payment and the application for service will be rejected.
- d) If the copper pair is suitable, TPG will endeavour to transfer the copper pair off the existing carrier's equipment and connect that copper pair onto TPG's equipment. When this occurs, all existing services then using the copper pair (including existing telephone or fax service, pay TV, back to base alarm monitoring) will cease to be useable.
- e) If you have chosen to port a telephone number from an existing supplier into the TPG Voice service, you may nominate during the application process an alternative service to which calls to that telephone number will be diverted until the porting has been completed. You remain responsible to your existing supplier for charges that are incurred for the diversion and during the diversion.
- f) If you wish to use a new number allocated by TPG, our systems will allocate that number based on the service delivery address details.
- g) We will inform you when the service activation, including porting if applicable, has been completed.

10. CONTRACT PERIOD

10.1. The plan that you have acquired may stipulate that a Minimum Contract Period is applicable to the service. You agree to retain the service for that Minimum Contract Period.

10.2. If you cancel a service in respect of which there is a Minimum Contract Period, or TPG disconnects the service following a default by you, you will be liable to pay an early termination charge as stipulated in the application process.

10.3. In addition to the rights of termination set out in the Standard Terms or otherwise in this Service Description, we may terminate the service by giving you written notice in the following circumstances:

- a) If you have not used the TPG VOIP service for a period of 3 months;
- b) You use the service to make threatening, abusive or hoax calls; or
- c) You use the TPG Voice service to make calls via another carriage service provider, whether by way of an override code or by preselection.

11. RELOCATION OR CANCELLATION

11.1. You may request us to relocate the service delivery address for the service. Our ability to accept a relocation request will depend on the existence of available infrastructure and an appropriate qualified copper pair at the new service delivery address. If a relocation cannot be processed because of a lack of infrastructure or a suitable copper pair, the relocation request will be treated as a cancellation by you of the service and, if early, may require you to pay the early termination charges.

11.2. A relocation may incur a charge and may involve you accepting certain other terms and conditions advised to you at the time of your application for a relocation. If you proceed with a relocation, you must accept those terms, including a new Minimum Contract Period if that applies.

11.3. After the expiry of the Minimum Contract Period, you may terminate the service by giving us at least 30 days written notice. You must pay for charges for the service up to the end of the notice period.

11.4. You authorise us to charge all termination fees, including, but not limited to, any early termination charges to the credit card or direct debit account on receipt of your termination notice.

12. SERVICE FAULTS

12.1. While we will endeavour to make TPG Voice services available to

customers 24 hours a day, 7 days a week, TPG Voice services are not fault free and we cannot guarantee uninterrupted service, or the performance or quality of the service. There are many factors outside of our control which affect TPG Voice services, such as the performance of third party suppliers (including overseas telephone companies) and equipment, force majeure events, for TPG VOIP the amount of bandwidth available for use by the voice service, and quality of the copper pair.

12.2. TPG limits its liability to you for interruptions to your TPG Voice service or for any resulting damage or loss suffered by you or any third party to a maximum of 12 months charges paid by you to TPG for the TPG Voice service.

12.3. We reserve the right to perform maintenance work from time to time, which may temporarily interrupt your access to the service. Where possible, we will perform this work during non-peak times.

12.4. You must direct all queries regarding faults/outages of the service to our technical support Help Desk (see contact details online at <http://www.tpg.com.au/about/contact.php>). You must not direct inquiries to third party service providers, including Telstra. We will invoice you for costs incurred by us if you engage a third party for assistance with your service.

13. CHARGES

13.1. You must pay all equipment, delivery and set-up charges in advance.

13.2. You must pay for all usage of the TPG Voice service regardless of whether such usage was authorised by you or not.

13.3. The charges for use of the TPG Voice will be in accordance with:

- a) The rates for certain call types or features identified as applicable to the plan you apply for in the application process (the "Specified Rates"); and
- b) The rates for specific features acquired by you after the original application process as nominated to you when you acquire those specific features;
- c) For all other call types (the "Variable Rates"), the rates set out in the TPG Voice Rate Card available on the TPG Website from time to time which may be separated into Variable Rates for TPG VOIP and Variable Rates for TPG Home Phone.

13.4. Other charges may also be applicable for special services relating to the TPG Voice service which may be found at the TPG Website http://www.tpg.com.au/products_services/adsl_additionalprices.php

13.5. Because the Variable Rates are:

- a) set low to give you the maximum possible benefit; and
- b) can be significantly affected by currency exchange rate changes and political and commercial shifts in foreign countries

TPG reserves the right to modify the TPG Voice Rate Card at any time and without individual notice to you. Any changes to the TPG Voice Rate Card will be made on the TPG website. Before making a Variable Rate call type, you should check the TPG website to ascertain what rate will apply to that call.

14. PAYMENTS

14.1. For TPG Voice services, TPG requires that all customers pay a deposit to be held by TPG to apply against any accrued charges. The deposit amount will be nominated in the application process. If the deposit falls below a specified amount, TPG will automatically debit your nominated account to restore the deposit amount. If the top up fails, TPG may restrict the service. TPG will provide you notice about the restriction event. If the service remains restricted and you fail to remedy the default within 30 days, TPG may disconnect the service.

14.2. Payment options are credit card and/or direct debit from a nominated bank account, as specified on the TPG website for the plan chosen by you.

Accounts paid with an American Express or Diners Club card will incur a surcharge of 2.75% (incl. GST) of the payment amount when we debit the card. 14.3. Invoices will not be issued but charges will be incurred and payable regardless of the fact that an invoice has not been rendered.

14.4. Where payment is made by direct debit or credit card, TPG may suspend the service without giving notice to you if the direct debit is declined for any reason. A dishonour fee will also be payable in respect of such a decline.
